A Track Meet

The pupils of the Innisfail, Olds Didsbury, Carstairs and Crossfield schools will compete in the various events of an athletic track meet to be held at the Didsbury Fair Grounds on Friday, May 2nd. Sports commence at 10.30.

A full line of athletic events will be run off including dashes, long runs, jumps, pole vaults, tug-o-war, putting the shot, girl's basketball tournament, rugby etc., etc.

A good program will be put on in the evening in which the students from the various schools are to take part. The Innisfail school is putting on a play that was a splendid success up there a month ago. Other items consisting of local and outside school talent will go toward making up an exceptionally fine program. A small admission charge will be made to defray expenses.

Boost athletics! Encourage good clean sport by making May 2nd a red letter date. Don't fail to be present and BOOST.

"Say, Lissen"

A NOBLEMAN AND A BOOK ARE ALIKE—THEY BOTH HAVE TITLES.

A Program at Jutland

A few weeks ago the Jutland Sunday school planned to put on an Easter program. The program committee was appointed and work proceeded with. On Sunday, April 20th, when about one hundred and fifty people were assembled in the school room, the program was opened by singing, "When I Survey the Wondrous Cross on which the Prince of Glory Died," followed by prayer and the reading of a scripture lesson from Luke 24:1-9 with a few brief comments on the lesson, after which followed some splendid singing by both children and adults. The drills recitations and readings were given in a most graceful manner. It was quite evident that the program committee had done their part and was very commendable to those who shared in the preparation of the splendid program; also the decoration of flowers was beautiful. The artificial white easter lily and the evergreen crowns which were displayed in the drills, showed the artistic handiwork of our Jutland ladies. The climax of the program was reached when an offering of \$30 was received and donated to the Christian Orphanage Home at Olds.

J. E. Bender, Pastor.

Didsbury Girl Honored

The Calgary General Hospital recently announced this year's graduates and heading the list was the name of Miss Ella Sick, Didsbury. Miss Sick was graduated with honors and awarded the gold medal.

Miss Sick is well known in this district and is a granddaughter of our familiarly known Dad Sick. She was a student of the Didsbury High School for some years before going to Calgary and has since then put in her three years training at the General Hospital.

Miss Sick will receive heartiest congratulations from her friends on her splendid record.

Dire Poverty

Alice was playing house, and noticing the child conversing with an imaginary caller her mother listened unobserved. The subject of the conversation seemed to be the sorrows of the poor, and finally Alice remarked: "Oh, yes, we are very poor, so poor we have to spank the babies to keep them warm."

Some people can't understand this country. Neither can we. After a most decidedly mild and snowless winter we are now getting some heavy snow falls. After the thirteen inch fall of last week had just nicely dried up along comes another storm Tuesday night leaving about another six inches of snow, which is rapidly disappearing however.

Your Support is Needed

The Didsbury Community Board of Trade is now in action and it remains with the general public as to whether it will be a success or not.

As its name implies the organization is not a local affair but it includes the whole community of the Didsbury district. It has been formed for the purpose of assisting both the town dweller and the farmer. It has been formed for a better community spirit, for community development, community defense and community pride, and for a better knowledge of the physical and moral resources of the whole. The aim of the organization is service to all and help in any direction that it may be called upon for the welfare of the whole district.

The name Board of Trade in the old sense of the title is somewhat misleading today. Formerly it was taken to mean a formation of town business men to foster trade for that town through its activities. Today the broader meaning has been given to the name and all sections of the community have been included. The organization is ready and willing and in fact specially invites the farmers to join up with it, the farmer being a business man as much as any merchant in the town, and there are a great many things that affect him that the business man can assist him with. On the other hand the town business man fully realizes that there are a great many things that the farmers can advise them on and on which action can be taken together for the benefit of the whole.

So let us all pull together. It is better to say a good thing about a bad fellow than a bad thing about a good fellow.

The membership fee has been set at a very low rate of \$2 per year, which will not break any person. No doubt we would all like to see the affair run without any fee having to be paid but unfortunately if the Board is to function at all some financial consideration has to be provided. No salaries are being paid to any person and the cash supplied goes towards paying the incidental expenses that are always entailed in an organization of this kind.

Don't knock. Get behind the Board and push.

"GENTLE JULIA" WILL MAKE OLD MEN FEEL LIKE SIXTEEN YEAR OLDS

For adults who sometimes feel a longing to pull bell ropes and jump fences, climb trees and do similar things to rid themselves of superfluous youthful energy. It is recommended that they see the William Fox production of "Gentle Julia" at the Opera House. It is a screen version of this story by Booth Tarkington.

Bessie Love plays the title role so naturally that you don't wonder everybody in town loved Gentle Julia. Harold Goodwin, as her callow lover, Noble Dill, wins your sympathy as well as your smiles. The juveniles do remarkable work, indicating expert direction by Rowland V. Lee. Charles K. French, as the father of Gentle Julia, who finds it necessary to devote more thought to her than to his banking affairs, is fortunately cast indeed.

The story tells of a small town girl with whom all the boys of her acquaintance are in love. She is kind to the all. In fact, she makes each of them believe she is her favorite. But she rather falls for a Chicago business man. How Noble Dill wins her back goes to make a picture of unusual type, exceptionally entertaining.

A Profitable Business

The business of saving your own money is an exceedingly profitable one in which to engage.

When part of your salary is deposited regularly in the Union Bank of Canada, it gives you a feeling of independence; you know your money is safe from fire and theft; and your deposit is earning interest all the time.

The Time To Get Busy

With the month of March drawing to a close Western Canada makes ready for that annual renewal of activities characteristic of the country. While all Canada is, broadly speaking, a country of seasonal occupations, this is especially true of the Western prairie provinces. In the East manufacturing proceeds throughout the year, but the greatest period of activity is in the summer. The men who labor in the lumber mills in the summer, disappear in the woods during the winter felling the trees to make summer operations in the mills possible. But even in the East the coming of Spring means the beginning of real activity.

Here in the West, with the exception of coal mining in Alberta, the coming of Spring is the signal not only for the commencement of farm operations, but for renewed building operations, the carrying forward of municipal works of all kinds, road building, railway construction—in a word, all those activities to which a stop is put during winter weather.

It means the opening of navigation on Canada's lakes and rivers, the inauguration of the immigration rush, a veritable Rip Van Winkle awakening from the slumber of winter.

And with this great awakening at hand it behooves the people of Canada to resolve as individuals and as a nation to make the most of 1924. New Year's Day may fall on January 1, but Canada's real New Year's comes with the passing of winter and its more or less enforced idleness, and the advent of Spring with all its opportunities and possibilities.

The year presents itself as one full of promise. Business conditions throughout the Dominion have been steadily improving. Betterments have been recorded from month to month for some time past in Canadian trade returns, in Bank Clearings, in railway earnings, in the declining number of commercial failures, in all those things whereby we measure the material progress and welfare of a country. And the business barometer is raising; it indicates fair weather ahead.

Coupled with these favorable signs is a grim determination in evidence in all directions to "go easy" in the matter of immediately unnecessary expenditures and the accumulation of debt. The watchword in Canada today is "strict economy" consistent with efficiency and service. The popular demand is not for further large public expenditures, which means more debt, but retrenchment and debt reduction leading to lessened taxation.

These are all favorable symptoms in the body politic. But something more is required to provide that added impetus so essential to a real revival of productive activity throughout the whole Dominion. With the commencement of building operations each year, there crops up the question of wage schedule, hours and conditions of labor, etc., etc. After a winter of idleness, artisans and laborers under the direction of their Union leaders, make demands for the maintenance of wages at the old war-time peak. The miners ask for it, so do the lumbermen, and the transportation workers, and finally the artisan and laborer. The net result is that building costs are so high that construction works of all kinds are discouraged and abandoned because it becomes unprofitable for the man with money to invest to proceed.

Instead of the wheels of industry beginning to revolve and gather momentum as they should, they are clogged at outset; instead of employment becoming general, another period of almost winter stagnation ensues. Valuable time is lost and a month or more of our all too short building season is gone before anything worth while can be accomplished.

The workers are thus standing in their own light and sacrificing their own best interests. Acceptance of a somewhat lower and more reasonable wage in view of existing conditions would soon develop a situation where there would be steady employment for all; work would be available earlier in the year and with the volume of work started would continue later in the Fall. In the long run each man would earn more in the season through the additional length of time employed, while the number to be employed would be vastly increased.

As a result of the greater activity, larger sums of money would be placed in active circulation, all business would benefit, and, because of larger turn-overs by merchants, prices of necessities to the consumer would be lowered, thereby giving a greater purchasing power to the worker's day's pay and more than compensate for the fact that such pay was somewhat smaller than he was inclined to demand.

The best interests of our people, and of Canada as a country demands that, with the opening of our annual season of activity, every person get to work just as quickly as possible and work with diligence and unremitting vigor until winter again steps in and cries a halt. What Canadians should aim at this year is not a minimum of working hours, but the full maximum of which they are capable consistent with proper protection of health and the unimpairment of their mental faculties and physical strength.

Spring Shows and Sales

The annual spring livestock show and sale at Calgary is scheduled for March 26 to 28, Edmonton, March 31 and April 1, while the annual bull sale at Lacombe will take place on June 2 and 4.

Hard and soft corns both yield to Holloway's Corn Remover, which is entirely safe to use, and certain and satisfactory in its action.

Self-made men are yet in an imperfect state. They haven't eliminated the noise.

CHILDREN CRY FOR "CASTORIA"

Especially Prepared for Infants and Children of All Ages

Mother! Fletcher's Castoria has been in use for over 30 years as a pleasant, harmless substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups. Contains no narcotics. Proven directions are on each package. Physicians every-

where recommend it. The kind you have always bought bears signature of

Chas. H. Fletcher.

WORLD HAPPENINGS BRIEFLY TOLD

The Belgian coal output for January was 2,000,000 tons, the greatest since the armistice.

King George will not race his big yacht, Britannia, this year, in consequence of lack of competitors in her class.

The British Government does not feel it can intervene officially with the Russian Soviet Government to obtain release of Catholic Church dignitaries imprisoned in Russia.

The first list of Japanese army officers dismissed as a part of the army limitation policy adopted by the government in 1922 has been published. It includes 13 lieutenant-generals, 40 major-generals and 180 colonels.

Page boys in London hotels are learning to speak French. The managers say it will be helpful both to boys and guests when the crowds begin arriving in April for the great British Empire Exhibition at Wembley.

The ground floor of a magnificent wing of one of the most imposing imperial palaces of Vienna soon is to be opened to the public as a fashionable restaurant, cake shop and wine room. In the last named will be dispensed the choicest vintages of the former imperial cellars.

HOME TREATMENT SAFE AND EFFICIENT

Ailing People Made Strong By Dr. Williams' Pink Pills

Dr. Williams' Pink Pills do one thing, and do it well. They build up the blood, increasing the number of red corpuscles. As this is done the blood becomes a richer red and is able to carry more oxygen, the great supporter of human life. As the blood improves in quality the tissues of the body are better nourished and the functions of the body are better performed. This is the reason Dr. Williams' Pink Pills have been so successful in the treatment of diseases due to poor, thin blood, and it is also the reason why they are so successful in building up strength after fevers and acute diseases. Among those who have used Dr. Williams' Pink Pills with great advantage is Mrs. Helena B. Taylor, Hanover, Ont., who says: "Not long ago I was critically ill. The trouble started with anaemia and a run-down system, and ended with pleurisy. I was confined to my bed for three months and three doctors were in attendance at different times. My life was despaired of, and I was practically living on doctors' medicine, because I could not eat. My friends did not expect me to recover. During my girlhood Dr. Williams' Pink Pills had brought me through a severe attack of anaemia, and my mother urged that I should try them again. The doctor could not understand why we wanted to try these pills, but we decided to do so. After taking six boxes a decided change was taking place. I was actually getting hungry and anxious to live. After using twelve boxes a miracle was worked. I could walk and felt my strength coming back, and people on all sides were asking what was helping me, and we were not slow in telling them it was Dr. Williams' Pink Pills. With my health fully restored through the use of these pills I am a striking example of what this wonderful medicine can do, and now I never see a pale or sickly-looking girl or woman that I do not feel like going up to her and asking why she does not take Dr. Williams' Pink Pills."

You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Alberta Coal Production

Total coal production in Alberta for 1923 was 6,866,923 tons, compared with 5,976,432 tons in 1922, according to the annual report of the provincial department of mines. Of the 1923 production, a total of 1,382,788 tons was for consumption in the province, 1,937,753 went to other provinces, 83,557 to the United States, and the balance was absorbed by the railways.

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm Exterminator to drive out the parasites.

B.C. Seed Potatoes

As a result of a meeting held in Victoria recently of representative potato growers from various parts of the province, the British Columbia Certified Seed Potato Growers' Association will act for educational purposes and the seed will be marketed through the various locals.

Minard's Liniment for Headache

Vacuumized Tins

80¢
the ½ lb

always fresh

Ogden's Liverpool.

The record for the greatest distance ever walked in one day—127 miles, 1,219 yards—is held by Haves of England.

Cause of Asthma. No one can say with certainty exactly what causes the establishing of asthmatic conditions. Dust from the street, from flowers, from grain and various other irritants may set up a trouble impossible to eradicate except through a sure preparation such as Dr. J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has freed a generation of asthmatic victims from this scourge of the bronchial tubes. It is sold everywhere.

Yeoman Warders Threaten to Strike

The "beefeaters" who guard the Tower of London have threatened to go on strike unless His Majesty's officials see fit to reduce their hours of work. The "yeomen warders," as they are officially termed, and who are all old army sergeants with spotless records, claim they were promised an additional five members to their corps, which would reduce the individual working hours from ten to eight daily. The five have never been appointed.

Should Be Encouraged

Women's attitude towards tobacco nowadays—so far as concerns the men of her household—is one of encouragement rather than opposition, because she realizes that men are better tempered when they smoke.

Miller's Worm Powders act so thoroughly that stomachic and intestinal worms pass from the child without being noticed and without inconvenience to the sufferer. They are painless and perfect in action, and at all times will be found a healthy medicine, strengthening the infantile stomach and maintaining it in vigorous operation, so that, besides being an effective vermifuge, they are tonic and health-giving in their effects.

The plough is generally regarded as the most important tool used by civilized man.

Britain's War Debt to Canada

Adjustment Has Been Reached and Payment Will Be Made Soon

The Canadian Press learns that an adjustment of accounts between Canada and Great Britain with regard to war liabilities has been made, and the amount that Canada is to receive has been settled.

The Dominion will receive from Great Britain certain Canadian bonds and a sum in cash. The whole payment will amount to between \$8,000,000 and \$10,000,000. The payment will become operative on April 1.

Pains In Back Subdued Sore Chest Relieved

A Nova Scotian Tells How She Overcame Her Troubles With

NERVILINE

"I consider Nerviline the best remedy for a cold, sore throat or tightness across the chest," writes Miss Lucy Mosher, from Windsor, N.S. "For years our home has never been without Nerviline. I had a cold on my chest that fourteen remedies couldn't break up. I rubbed on Nerviline three times a day, used Nerviline as a gargle and was completely restored." It's because Nerviline is so powerful, so penetrating, so sure to relieve congestion, that it is used in most homes, for the prevention and relief of a hundred minor ills. Get a 35c bottle today.

Would End Leprosy

A campaign to raise funds for the treatment of 300,000 lepers in the British Empire has been launched in London. If sufficient funds can be raised it is hoped that Great Britain will be purged of the disease within a generation.

Minard's Liniment for Corns

Near Fresno, Calif., is a fig orchard of 12,000 acres in extent, the largest orchard of its kind in the world.

A Health Secret

It is frequently claimed by physicians that nine-tenths of all human ills may be traced to neglect to keep the bowels regular and the liver and kidneys active.

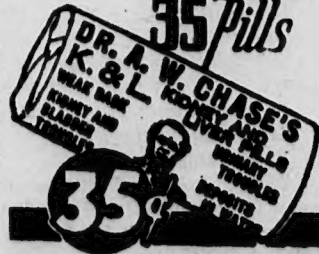

The result is an accumulation of poisons in the system which cause pains and aches and give rise to such dreaded diseases as appendicitis, Bright's disease, diabetes, high blood pressure, etc.

Dr. Chase's Kidney-Liver Pills are the ideal regulators of these vital organs because they act directly on the liver, kidneys and bowels, and ensure a thorough cleansing of the system.

You will notice that while the price of Dr. Chase's Kidney-Liver Pills has been increased to 35 cents, the box now contains 35 pills instead of 25 as formerly.

Likewise Dr. Chase's Nerve Food is 60 cents a box of 60 pills, instead of 50 cents a box of 50 pills. Edmanson, Bates & Co. Ltd., Toronto.

NEW BOX
35 Pills

ESTIMATES ARE REDUCED BY LARGE AMOUNT

Ottawa.—The estimates for the financial year 1924-25, presented to parliament by Hon. J. A. Robb, provide a total of \$109,571,850, a reduction under the total amount of the main estimates for 1923-24 of \$26,939,385, and a reduction of \$46,373,715 under the total of main and supplementary estimates for 1923-24.

Practically every service shows a decrease. These reductions range in amount from a few thousands to \$19,335,576 in railways and canals.

Interest on the public debt, which is provided for by statute, is estimated at \$134,258,371, a reduction of \$3,999,992 from the previous year. Expenses connected with loans and general administration of the debts show a decrease of \$83,500.

For the first time in more than twenty years, says an official summary, the estimate for civil government, which provides for salaries of employees at Ottawa, has been reduced. The sums allotted to the departments have, in nearly every instance, been decreased from the amounts provided for 1923-24.

Civil government estimates show a total decrease of \$369,750, despite the necessity to provide large sums to cover statutory salary increases. Large reductions are provided in the department of National Defence, \$20,126; Interior, \$14,244; Immigration, \$35,050; Finance, \$42,022; Marine and Fisheries, \$34,940; Public Works, \$10,440; Post Office, \$18,930; Trade and Commerce, \$50,840; Patent and Copyright, \$34,270; and Labor, \$19,220.

NO MORE WEAK and DIZZY SPELLS Since She Used MILBURN'S Heart and Nerve Pills

Miss Bertha Charrette, Regina, Sask., writes:—"I have had a lot of trouble lately, with what I thought was heart trouble, and after any unusual exertion I always felt sick. My doctor advised a complete rest and change, but this I was unable to take.

I became interested in Milburn's Heart and Nerve Pills, so started taking them. I have now taken three boxes and am so much improved I can go about my daily work without feeling any after ill effects, and have not had any weak or dizzy spells for some time. Your medicine has done me more good than anything I have ever taken, and I will gladly recommend Milburn's Heart and Nerve Pills to any woman who is weak and run down."

Price 50c per box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Japanese Prince Dead

Tokio.—Prince Hironaka Kwacho, head of one of the branches of the Imperial Japanese family, died here of spinal meningitis.

MRS. ROSE CRAIG

SPARKLING EYES FOLLOW GOOD HEALTH

Toronto, Ont.—"From the time of my earliest girlhood I had always heard my mother speak in highest praise of Dr. Pierce's Favorite Prescription for women's ailments, so it is not at all strange that after I married and had backaches, nervous spells and other distresses that I should remember what my mother had always said of this Prescription, and I found it relieved me of my aches, pains and nervousness. It gave me renewed health and strength and so greatly benefited me that I have no hesitancy in saying that Dr. Pierce's Favorite Prescription is absolutely perfect as a tonic and nerve for women who are ailing or nervous."—Mrs. Rose Craig, 277 Mackville St.

You'll soon feel better if you obtain this Prescription of Dr. Pierce's at your nearest drug store, in tablets or liquid, or send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., for trial package tablets. Write for free medical advice.

W. N. U. 1517

China Orders the Soviet Envoy to Leave

London.—The Chinese Government has ordered the Soviet envoy in Peking, L. M. Karakhan, to quit China, says a dispatch to the Daily Mail from Peking. The action was taken, the dispatch adds, because M. Karakhan's notes to the Chinese foreign office were insulting, one of them amounting to an ultimatum, it giving China three days to recognize the Soviet Government. The correspondent says the situation is tense.

Interferes With Immigration

Cattle Embargo May Have Effect Of Keeping Settlers From U.S. Coming Here

Ottawa, Ont.—Immigration to Canada from United States, of which the promise is said to be considerable, is being interfered with by reason of the embargo against the importation of all animals from the States due to the outbreak of foot and mouth disease. It is reported here that the embargo is embarrassing a good number of farmers who had intended to come into the west, bringing their stock with them.

Departmental authorities will not relax the ban owing to the seriousness of the disease, but efforts are being made to induce intending settlers to leave their stock behind until the embargo is lifted, which it is hoped will be before the spring is far advanced.

The outbreak is still confined to California.

Saskatchewan Estimates

Amount of \$1,440,693 Comes Under Appropriations

Regina.—Estimates aggregating \$1,440,693 were passed by the Saskatchewan Legislative Assembly in committee of supply. Motions calling for reductions in the sessional allowances to the Speaker and Deputy Speaker of the house and in the salary of the clerk to the Executive Council (J. W. McLeod) were defeated.

Questions poured in on the attorney-general when the vote of \$1,201,671 for his department was considered. Most of the questions were put by members seeking information as to what the various items included.

The votes dealt with at the sittings were as follows: Legislation, \$165,150; Executive Council, \$74,572; Attorney-General, \$1,201,671; Provincial Secretary, \$99,300.

Alberta Legislature

Will Investigate Economic Conditions Affecting the Farmer

Edmonton.—During the present session the agricultural committee of the legislature will hold an investigation into the economic conditions affecting the farmers, with the object of bettering conditions for "the man on the land," according to a proposal by A. E. Claypool (Farmer, Didsbury), introduced in the form of a resolution and which was adopted by unanimous vote.

The provisions of the new highways bills, setting the speed limit on all highways at 30 miles an hour, was adopted in committee of the whole. Sleigh bells will not be allowed under the new bill.

Stefansson to Help Ada Blackjack

Seattle.—Ada Blackjack, who survived the strain of life on Wrangell Island, north of Siberia, when four white men composing the remainder of an expedition led there by Allan Crawford, of Toronto, perished, but who was brought down by tonsillitis in this city, received an offer of help from Vilhjalmur Stefansson, Arctic explorer.

Mrs. Blackjack said the help would be acceptable, and that by means of it she hoped to return in the spring to her home in Nome, Alaska.

Banting Foundation Fund

Toronto.—The Banting Research Foundation is now making an immediate public appeal for funds. This foundation was created to appeal to the public for support in making possible the continuance and prosecution of medical research work, and to signalize the discovery and development of insulin. It has been organized by the alumni of the University of Toronto, and has as its objective, \$200,000.

U. S. WOULD GAIN MUCH BY HELPING EUROPE

New York.—The United States will unquestionably feel the impulse to work for permanent peace in Europe, on which a large measure of her prosperity depends and "will not leave Europe to stew in her own juice," Sir Esme Howard, new ambassador of Great Britain to the United States, declared at the Pilgrim Society annual dinner.

Sir Esme prefaced an appeal for co-operation in an effort to remove the seeds of armed international conflict, with a graphic reference to the devastation and common woe which, he said, was the aftermath of the great war. Incredible as it might seem, he said, men still were to be found who preferred war to judicial peace.

"I cannot but believe that the United States will unquestionably feel the impulse to work, in her own way and in her own time, for permanent peace in Europe, on which, to put it on no higher grounds, so much of her own prosperity depends," he continued, asserting it was axiomatic that the prosperity of the United States would be in ratio with the prosperity of all of Europe.

ASPIRIN

Beware of Imitations!

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-three years for Colds, Headache, Toothache, Lumbago, Neuritis, Rheumatism, Neuralgia, Pain, Pain. Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proven directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Prepared For Long Strike

Lethbridge, Alta.—"If the operators want a fight the miners are ready; we are backed by the international, and are prepared for a three-year strike, if necessary," said Alex. Robertson, secretary of the local union, U.M.W. of A., in an interview here.

Will Investigate Old Age Pensions

Ottawa.—Old age pensions will be the subject of an investigation by a special committee of parliament this session, it was stated in the house in answer to a question. The question of superannuation and retirement of employees of the Canadian National Railways is at present under consideration by the railway management. When the matter is settled between representatives of the employees and the board of directors, the government will provide requisite legislation.

Disasters In Japan

Submarine Sinks and Army Dirigible Catches Fire and Is Destroyed

Sasebo, Japan.—The 800-ton submarine No. 43 of the Japanese navy, collided with the warship Tatsuta during manoeuvres and sank with four officers and forty men in 26 fathoms of water, ten miles outside Sasebo harbor. The submarine went down suddenly after the collision.

Tokio.—A small dirigible caught fire and fell in Ibaraki Prefecture, northeast of Tokio, killing the crew of five men. The body of the commander was the only one found, the other four probably having leaped from the blazing airship before it plunged into a forest.

Jury Disagrees

For Second Time In Abbe Delorme Trial Jury Fails to Reach Agreement

Montreal.—The second trial of Abbe Adelard Delorme on a charge of murdering his half brother, Raoul, ended in a disagreement of the jury.

Court officials announced the jury split ten for acquittal and two for conviction. No jurymen, however, could be got to confirm these figures.

Asked for a statement on the situation created by the second disagreement of juries in the Delorme case, Crown Prosecutor Calder said: "The prisoner will go back to jail and will be tried again unless the attorney-general enters a plea of nolle prosequi (unwillingness to proceed). Without this the case must be proceeded with until a verdict is reached."

Turkish Women Refused Franchise

Constantinople.—Women have not yet won the vote in Turkey. The National Assembly at Ankara adopted the first seventeen articles of the new constitution, but the tenth, which specified that every Turk upon completing his 18th year, was entitled to vote in parliamentary elections was amended, after lively discussion, by insertion of the word male.

H. B. Railway Expenditure

Ottawa.—Minor construction work and track upkeep on the Hudson's Bay Railway cost \$112,963 since the beginning of 1923, it was stated in the House of Commons in answer to a question. Material, equipment and rolling stock now stored at Port Nelson is valued at \$1,151,800.

NEED FIGHTING SPIRIT TO DEAL WITH PROBLEMS

Moose Jaw.—Advocating a fighting spirit in dealing with problems to the country which were causing pessimists so much worry, Professor W. W. Swanson, University of Saskatchewan, urged retail merchants, at a banquet here, to aid in spreading confidence. "Mobilize the physical, mental and financial power of the nation and solve our difficulties," he demanded. "We have the brains. Let Canada make a real national contribution to a more sane and stable world than the present."

CORNS

Lift Off—No Pain!

Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers.

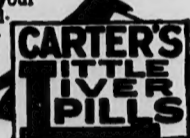

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn or corn between the toes, and the foot callouses, without soreness or irritation.

Deny Secret Pact

Paris.—The French Government issued a statement denying a story published in Berlin alleging a secret compact between France and Czechoslovakia.

The Liver Is the Road to Health

If the liver is right the whole system is better off. Carter's Little Liver Pills awaken your sluggish, clogged-up liver and relieve constipation, stomach trouble, inactive bowels, loss of appetite, sick headache and dizziness. Purely vegetable. You need them. Small Pill—Small Dose—Small Price

WANTED—2 Milk cows, fresh. Must be government tested. Also Registered Shorthorn bull, 3 years old for sale. Phone 34. 2p17

STRAYED—From ranch west of Three Hills, one black mare with narrow white strip in face, weight about 1500 lbs, shod in front, Indian brand. Suitable reward for recovery. Phone M 5571, Calgary or address J. H. McConkey, 107 Anderson Apts., Calgary 3c17

FOR SALE—Brome Grass seed, the best hay and pasture grass. This is home grown seed free from noxious weeds. No. 1 Govt. test, price 14c lb. Apply Theo. Reist, 603, or W. G. Liesemer. tfe11

FOR SALE—Purebred Buff Orpington hatching eggs at \$1.00 per 15. Heavy laying strain. Mrs. W. J. Scheldt. tfe12

Provincial Notes

TAR SAND EXPERIMENTS

Plans to bring to completion this year the experimental work in connection with the use of tar sands from McMurray have been made by the Alberta University authorities in charge of this research work. A plant for the extraction of bitumen will be erected this summer at Edmonton.

ALBERTA HIGHEST IN AVERAGE MILK PRODUCTION

Alberta's average production of milk is well over that of the whole Dominion, according to a summary of cow testing work, carried out by the dairy and cold storage branch of the Dominion Department of Agriculture.

The average production for eight months or longer for the Dominion was 5,926 pounds, but Alberta's figure rose to 7,132. Average fat production for the Dominion was 225.5 pounds and here again Alberta's cows went better than the average and attained 255.7.

PLAN SUGAR BEET FACTORY

Final decision on their plans to establish a beet sugar factory in Alberta will be made this summer by the Utah-Idaho Beet Sugar Co., whose officials are expected to visit the Lethbridge district and other Southern districts shortly. It is stated that farmers in the Magrath district plan to seed more than 1000 acres to sugar beets this year.

LEGISLATURE CONCLUDES

The Legislature of the Province concluded its Sessions last Saturday night, when more than 50 bills were given official assent. These include the new liquor act, the new election act, and other important measures.

MAIL COURSE OF STUDIES

The elementary mail course of studies organized last year by the Provincial Department of Education

for children living in outlying districts of the Province who are unable to attend school, has proved a considerable success. Between 150 and 175 students are registered in the course, which is now in charge of a special official of the Department, a qualified teacher who prepares the studies and examinations. The majority of the students are making splendid progress in the studies. The course was designed specially to aid those children in districts where school facilities are not yet provided.

FIRST CARBON BLACK PLANT

The first carbon black plant in Canada will be installed, it is stated, at Peace River, by Canadian petroleum, Ltd., which company plans to utilize the great deposits of gas in the Peace River district. The company plans to employ about 100 men at the commencement of its operations, if its plans are fulfilled.

ALBERTA'S POPULATION

According to the basis on which Alberta is now receiving subsidy from the Federal Government, the population of the Province is estimated to be 645,000. The 1921 census gave the population at 588,000.

PRIZES FOR SEED GRAIN MEN

The Calgary Board of Trade announces that \$500 will be distributed in prizes in 1924 to the first prize winners from Alberta at the International Hay and Grain Show in Chicago in December. Last Decem-

ber Alberta men won four Championships and 44 other prizes.

RECORD WORK OF PROVINCIAL POLICE

What is described as the greatest coup in the seven years' history of the Alberta Provincial Police, found its conclusion last week in the revelation to officials of the Police of the hiding place of a large proportion of the bonds stolen from the Union Bank at Foremost Alberta, and the Royal Bank at Ladner, B. C.

As a result of the work of Assistant Commissioner Nicholson, of the Police, more than \$200,000 worth of bonds have been recovered intact, as a result of confessions made to Assistant Commissioner by one of the men implicated in the robberies.

Chief Operator Sending With Master Clock

EVERY one who has occasion to travel and every one who thinks at all—which is, we submit, another way of saying every one in this broad Dominion of ours—has marvelled, at one time or another, over the exactitude with which the vast number of trains on our Canadian lines are handled safely and punctually. Express, local, special, freight, construction and other trains are forever plying to and fro along these lines, leaving the same stations and utilizing the same switches within a few minutes of one another, yet delays and accidents are extremely rare. This efficiency, which is primarily dependent on exact punctuality, cannot be achieved unless all clocks and watches used by those responsible for handling trains agree and are all strictly on time.

How is this accuracy maintained? Obviously, there must be an elaborate organization to deal with it, for a railroad company cannot afford to take chances in such an all-important matter. The Canadian Pacific Railway, for instance, recognizes this and has perfected an extensive department employing scores of men who devote all their energies to checking and adjusting the Company's official clocks and watches. Some details of its work are interesting.

The official title of this aggregation of experts is the Time Service, Vision, Color Sense and Hearing Department. In this department there is a Chief Inspector for Eastern lines and one for Western lines, each with a separate office. From

these offices the work of setting, regulating and repairing all clocks and watches is directed and controlled.

For setting the Company clocks, the department employs a method which is illustrative of the wonderful possibilities of modern science. In certain stations, round-houses and yard offices there are clocks known as comparison clocks, so called because they have been officially designated as clocks at which conductors, engineers and others may safely set their watches. In the head telegraph office of the Canadian Pacific, in Montreal, there is an electrical master clock, connected with a similar clock kept in the observatory of McGill University, Montreal. The latter clock's accuracy is maintained by astronomical calculation and it, in turn, controls the master clock in the Canadian Pacific head telegraph office. From this office, lines radiate to every Canadian Pacific telegraph station in the Dominion.

At a certain hour daily, the McGill master clock indicates the correct time by beats on a telegraph instrument maintained specially for the purpose in the head telegraph office. The signals commence strictly on the stroke of 11.54 a.m. From that instant to ten seconds short of 11.55, one beat is sounded upon every second. A pause of ten seconds follows until, on the stroke of 11.55, two beats are sounded. This performance is once repeated, ending on the stroke of 11.56. To the Chief Operator is delegated the great responsibility of transmitting these signals to the hundreds of telegraph operators at the comparison stations throughout the system. It is his duty to sit at a key connected with the instruments of all these operators and repeat the signals as they are received.

In the meantime, the operators

have been standing by, awaiting the signal. Every telegraph instrument on the immense transcontinental Canadian Pacific system, as the time draws near, is absolutely silent. At this dramatic moment, the Chief Operator literally holds the system in the hollow of his hand. The beats begin. The operators at the comparison stations watch their clocks as the signals flash westward to Vancouver and eastward to Halifax. They note the number of seconds error, slow or fast (if any), registered by the clock, the signals cease and normal work is resumed.

If the clock is more than ten seconds out, the operator at each station adjusts it to correct time. If it is less than ten seconds out, he announces the fact by placing beside the clock a card which indicates the amount of error. To prove to officials that he is not neglecting the job, he must then make an entry of the rating of the clock on a special card, which covers a period of one month. At the end of the month, the card which also contains notes as to when the clock has been wound, set or regulated, is sent in to the Time Service office concerned, thus enabling the Chief Inspector to maintain a close check upon all clocks.

Should a clock need adjustment by experts, it is at once replaced by a new clock from headquarters. Station clocks, other than comparison clocks, upon which the public depend for catching trains, are similarly checked, as are also the clocks in offices which dispatch telegrams and orders requiring timing. In the larger offices, such as the Company's headquarters at Windsor, St. Station, Montreal, the clocks are electrically set and wound by one master clock.

Operator Receiving With Comparison Clock

Comparing Watches at Train-Time

Watches carried by employees responsible for the punctuality and safety of trains are also checked regularly and, in addition, are periodically cleaned. Strict regulations govern who shall carry watches and also the makes and grades permitted—no less than 12 makes and 75 grades are approved. Forty-six watch inspectors, to whom approximately 7,000 men report with their watches at fortnightly intervals, are employed by the Company on its Eastern lines alone, all responsible to the Chief Inspector, who keeps a complete record of each watch.

All of which leads one to wish that one's lady friends would appreciate the importance of punctuality to the same extent and were also compelled to report regularly to the railway watch inspectors, even though their failure to arrive at the rendezvous on the dot is not usually a matter of life and death, as it is with the railway Companies!

Where Time is of First-Importance

Here and There

The Canadian Pacific coastwise steamer "Ena" has carried from the seven plants operating on Barclay Sound over 12,000 tons of salt herring since the present season opened in November. This represents almost half the season's output, which will approximate 26,000 tons.

The heaviest immigration to Canada experienced during the last ten years is looked for this year. Already the arrivals are running ahead of those for the same months in 1923, those from European countries being especially large. The enquiries from prospective settlers in the United States are numerous.

Canada exported 6,532 pairs of leather footwear during January, 1924, according to a report of the Bureau of Statistics. Of these 2,179 went to the United States, 2,038 to New Zealand and 2,031 to China and Japan. Bermuda, the Straits Settlements and Newfoundland took the rest. The value was \$21,301.

Canadians imported 5,326,567 pounds of tea last month, or about three-fifths of a pound per head of population. The value of last month's tea imports was \$1,661,176, and for the twelve months ending January 31, the value of the 43,223,119 pounds imported into Canada was \$13,253,642. The bulk of it came from India.

Special trains of immigrants have recently carried lunch counter cars similar to those used on the harvesters' trains last summer. It is understood that the Canadian Pacific have inaugurated this as a feature of all long distance immigrant trains, thus doing away with the necessity of the newcomers providing their own food or using station lunch counters en route.

The completion of plans for the development of hydro-electric power during the current year will add 900,000 h.p., to the present total of 3,228,000 h.p., already installed in Canada. This additional power will be used in British Columbia to assist mining and pulp industries in Manitoba to supply rural needs, and in Ontario for gold-mining and other industries. In Quebec the chief developments are in connection with the pulp and paper industries, and farther east, in the Maritime Provinces, for public utility purposes.

There is every indication that the dearth of the domestic servant in Canada will be greatly relieved in the course of the ensuing few months. Miss Esther Mackie, head of the Woman's branch, Colonization department, Canadian Pacific Railway, London, announces that "Specially conducted parties of domestic servants are being organized under the Empire Settlement Act in conjunction with the Canadian Government for the conveyance to Montreal and to Western Canada."

NOTICE OF SALE

Notice is hereby given under section 48 of the Domestic Animals Act, Municipalities, that the following horses were impounded in the pound kept by George Metz, Didsbury, Alta., located on the S. W. 24-31-27-4, on the 28th day of March, 1924 and that the said horses were sold on the 9th day of April, 1924:

Black mare, pony, no visible brands and pinto mare, no visible brands. Sold to Chas. H. Mardon, Didsbury, Alta.

Grey mare branded  on right thigh; Brown mare, no visible brands. Sold to Christ Ehret, Didsbury, Alta.

Bay mare, white strip, branded A lazy D left thigh and Black mare, star, n visible brands Sold to Jake Ehret, Sunnyslope, Alta.

And that the said animals may be redeemed by the owner or on his behalf within a period of 30 days from the publication of this notice in the Alberta Gazette, upon the payment of all fees and costs due to the Municipality and the purchaser of the said animals.

For further information apply to the undersigned.

1016 A. BRUSSO.
Sec., Treas. M. D. of Mt. View 310.

One of the most attractive features of the Canadian Pacific Railway Company's pavilion at the British Empire Exhibition, Wembley, will be the illuminated exterior panels, and the Neon lighting effect, similar to that used at the Coliseum, London, which is wonderfully penetrating and effective under all atmospheric conditions. The interior of the building displays, through working models and magnificent oil and water color paintings, the many ramifications of the great transportation system as well as the natural resources of this country.

According to E. N. Todd, freight traffic manager of the Canadian Pacific Railway the year 1924 will be a banner one as regards foreign capital coming into the country. "During the year 1923 a number of silk manufacturers from England and the United States decided to locate in Canada, and from present indications this particular movement is only in its infancy. At the present time our industrial department is in correspondence with a very large number of manufacturers who are seriously considering locating in Canada."

WEDNESDAY, APRIL 23, 1924

FIRST FORTNIGHTLY CROP REPORT

Issued by Department of Agriculture, Government of Alberta, Edmonton, Saturday, April 19, 1924. Opening of the 1924 crop season finds soil conditions somewhat more favorable, generally speaking, than was the case 12 months ago. The winter was extremely mild, but the spring season is late, characterized by frequent falls of wet snow which have been absorbed by the land and have made moisture conditions very satisfactory.

Over the majority of the province there is sufficient moisture in the soil to germinate the new crop. In the south-eastern section of the province, however, soil conditions are very dry, there having been very little snow in that part during the winter, with low precipitation during the spring.

The lateness of the spring has retarded work upon the land in most parts of the province, and it will be another week at least before spring operations become general. In a few isolated cases, work is being done on the land, and there are one or two reports of seeding having been commenced. General seeding operations, however, will be about two weeks later than last year.

In spite of the open fall, very little fall plowing was done last year, owing to the prolonged harvesting of the heavy crop. The summerfallow ready for seeding this spring is about the same extent as last spring, and there will be an increase of land put in summerfallow this season.

The success last year of new fodder and pasture crops such as corn and sweet clover will tend to bring under cultivation even greater areas of these crops in the south of the province.

Livestock was never in better condition. The large amount of feed produced last season, and the mildness of the winter has brought them through the winter season in excellent shape.

There has been a brisk demand for farm labor and the provincial labor branch has been very busy during the past few weeks placing a large number of hands, many of whom are immigrants from European countries. The demand is continuing to a certain extent.

EARLY MAILING

When an alert business man hears of an opportunity for a big sale he does not wait for a competitor to get ahead of him. Usually he is on his toes waiting to beat out the other fellow and get the business. As soon as a customer enters his store he hurries to give him quick service, and he makes prompt deliveries to hold the customer's good will. This same alert business man will be surprised then, to hear that there is one class of customer he is disappointing by delay on his part a share of business he is losing by his neglect, and in general, a large number of opportunities he is wasting. The customers we refer to are those dealt with by mail and the delay is caused through the practice of last minute mailings.

This last minute rush, which occurs at every Post Office, causes confusion and just as a crowd in a store means some customers disappointed, so the rush period at the Post Office may mean delay, or in the confusion a mistake might be made possibly involving an important letter. Quite aside from the possibility of a mistake being made, the practice of last minute mailing is certain to result in delay to at least a portion of the mail, because so many points there is only one train a day and that train may leave in the morning or early afternoon.

If you expect to land the out-of-town order and want to hold their good will, see that your mail is posted as soon as it is written. If you do this you will get better service and more business.

CHAPTER II.

Mary Fraser, as she galloped away over the rolling hills carried away with her a vivid impression of the personality of the young man she had so unexpectedly met on the trail. The faded, worn and slouchy scout's uniform he wore, and other details of his accoutrements were taken in at a glance. His fair, open and handsome countenance and his self-reliant bearing appealed to her fancy. Though she had abruptly dismissed him, refusing his offered assistance, she still felt assured that she would meet him on her return home and would then make amends for her seeming rudeness. She was aware that it was not customary for strangers to pass their home, after a long day's journey, without being offered the hospitality of a night's lodging. Those transient travellers on many occasions, were welcomed at her home. They proved pleasing diversions from the general routine and monotony of the lonely lives those early pioneers have had to pass in a district remote from the more congenial advantages of more settled communities. Instead of those visits proving an inconvenience they were often the source of considerable social pleasure to them. As youth appeals to youth, she anticipated with pleasure the prospects of again meeting him on her return home. Her disposition craved the society of people of her own age, an advantage that she did not, only to a limited extent, enjoy in her lonely surroundings.

While she loved the freedom of the life she led among the hills, the valleys and the lakes, and the surrounding landscapes appealed to her aesthetic tastes, yet there was the yearning for companionship and the society of people of her own age and kind. In her day dreams she pictured to herself the pleasures of the life she missed—a life of more congenial human surroundings. A longing for that life—a life that seemed to be beyond her reach—at times became an obsession with her.

The prospects accordingly of a pleasant social evening with a young stranger from the "outside" added

MOTHER OF TWIN BOYS

Tells How Lydia E. Pinkham's Vegetable Compound Relieved Her of Inflammation and Great Weakness

West St. John, N. B.—"I was in a general run-down condition following the birth of my twin boys. I had a great deal of inflammation, with pains and weakness. Finally my doctor recommended Lydia E. Pinkham's Vegetable Compound. He said that your medicine would be the only thing to build me up. I am sure he is right, for I am feeling much better and am gaining in weight, having gone down to ninety-three pounds. I was in bed for over a month, but am up again now. I have recommended the Vegetable Compound to my friends and give you permission to use my letter."—Mrs. ELMER A. RITCHIE, 82 Rodney St., West St. John, N. B.

There are many women who find their household duties almost unbearable owing to some weakness or derangement. The trouble may be slight, yet cause such annoying symptoms as dragging pains, weakness and a run-down feeling.

Lydia E. Pinkham's Vegetable Compound is a splendid medicine for such conditions. It has in many cases relieved those symptoms by removing the cause of them. Mrs. Ritchie's experience is but one of many.

You might be interested in reading Mrs. Pinkham's Private Text-Book upon the "Ailments of Women." You can get a copy free by writing the Lydia E. Pinkham Medicine Co., Cobourg, Ontario.

W. N. U. 1517

buoyancy to her elated feelings, and, in her abstraction, she spurred her horse to greater speed as she proceeded in her quest for the horses.

It was this feeling of elation that was partly responsible for her failure to examine more closely her surroundings as she cantered in the direction of two horses that she noticed grazing close in to the edge of a bluff some distance away. Confident that they were the horses she was in search of, she headed in that direction with an air of abstraction that made her practically oblivious of any danger that might be lurking in the vicinity.

As she rounded the edge of the bluff she was startled from her reverie by a hoarse command of, "Stop! Put up your hands." The suddenness of this order roused her at once to action. Her quick wits at a glance took in the situation, and convinced her of the futility of an attempt to escape or to offer resistance. All at once she seemed to be surrounded by a band of five men. Their forbidding aspects and pointing guns striking terror to her heart admitted of no temporizing action. She was approached by a dark complexioned, heavy built man, who seized her bridle rein and relieved her of her revolver. After a cursory examination of her horse and a close scrutiny of her face, he said, "Jump down young fellow, this is my horse you are riding."

Goaded to desperation by the hold-up and resenting the insolence of his looks and order, she answered, "No, sir; this is not your horse. You have no right to stop me in this way, nor interfere with me in any manner. The Mounted Police shall be notified of this insolent hold-up of me."

"The Mounted Police be d—d. We have a line on them gents, and they won't help you this time. Jump down or I'll pull you off."

Realizing that protest or resistance would be useless, and following the promptings of her feminine intuition, she passively yielded to inevitable necessity and dismounted as requested by him. After again looking into her face, he snatched off her hat. Then with an insolent leer on his face, he said, "I thought so." Quickly replacing it on her head, he said, loud enough for all to hear: "Young fella, so that you will not put the d—d Red Coats on our track, you will come along with us to-night."

After his close scrutiny of her face she was conscious of the fact that he was aware of her sex. It was also clear to her that he desired to conceal his discovery from the rest of his companions. This added to her fear of the man, but still she decided, in the meantime, to submit to his orders. Her feminine intuition warned her that discreet silence would be her safest plan for the present. She had nothing to expect nor hope for from the other members of the gang, who seemed to be acting under his orders.

Taking a lariat from one of the saddles close at hand, he led her into the shelter of the bluff. First he searched her for any weapon she might have in her possession. He then fastened the loop end of the lariat round her waist and bound her securely to a birch tree. He, however, left both her hands and feet free with sufficient slack to her bonds to enable her to stand up or sit down as she desired. He warned her, however, that if she attempted to escape he would shoot her in her tracks, a threat she was fully convinced he would carry into effect. He himself holding the other end of the lariat, joined his companions, who were by now lounging on the ground a few feet away.

Securely fastened as she was she stood for some time leaning against the tree, and after a while sat down. As the twilight deepened she endeavored to evolve in her mind a plan of escape, but the more she thought of her situation the more hopeless her chances seemed to be. The only avenue of escape that presented itself to her was the hope that her father would organize a search party for her rescue, but as this would take some time to accomplish, it offered her small consolation. By the time assistance could be called by her father these bandits would have taken her many miles away from the scene of the hold-up. She also feared the dangers that would attend an attempt at rescue. She realized that she was in the hands of desperadoes—men who would not hesitate to commit murder to escape capture. In her desperation she faced the tree to which she was tied, and leaning against it, offered up a fervent silent prayer to God for help, courage and

inspiration in her dangerous plight. As she thus prayed, her hand came in contact with an overhanging piece of loose birch bark. This she absently stripped off the tree, and, later, slipped it into the pocket of her jacket. Then turning around she sat down with her back against the tree for support.

A few feet away the men were engaged in conversation carried on in low voices. Listening intently to their conversation, she overheard them discussing their plans of escape to the south.

She learned that it was their intention to start on their trip as soon as it was dark. She further overheard that their objective for the first stage of their journey was a secret camping ground in the valley of the Souris. There they intended to remain in hiding during the next day and till shortly before daylight the next morning. At that hour they would make a dash across the United States boundary, when in the darkness of early morning, they were confident of escaping the vigilance of the Mounted Police, who, during the troublesome times of that year, kept a strict patrol along the boundary.

Inspired by the information overheard and deciding to make use of the shadow of the increasing darkness, she pulled out of her pocket the roll of birch bark. Then, with the stub of a pencil that she had in her pocket, she scribbled on its smooth surface a note, giving the gist of the plans of the outlaws. Replacing it into her pocket she decided to await an opportunity to drop it where it would be easily noticed by a rescue party.

Sitting there as the darkness deepened, her thoughts wandered back to her home. She thought that at that hour her mother, always solicitous of her safety, would be anxiously looking for her return. Slowly the tears crept down her cheeks as, more and more, she realized the anguish of her mother's heart at the unknown fate of her only child. Those were not tears of self-pity nor of fear, but of sorrow and sympathy for the father and mother, who were soon fated to realize the dangers that encompassed her. Bound and held captive as she was in the hands of the merciless bandits, she had not yet, however, abandoned hopes of escape or rescue. Her intuition and the buoyancy of youth kept up her spirits, and the dangers that threatened her only tended to sharpen her wits. With all her faculties alert to all that passed around her, she bravely faced the situation in which she found herself placed. Helpless as she seemed to be, she was still hopeful that an opening for escape would present itself to her. Thus she sat as the twilight of evening deepened into the darkness of night, and awaited the next move of her captors, whom she knew would soon be making a move for a start to the south.

When darkness had descended preparations were commenced for the start. She could not discern their actions in the darkness but, when the word was given, "All set," the leader approached her and loosened her bonds. He then ordered her to mount her horse. The fact that she was to have her own horse to ride gave her new hope, for, having confidence in his speed and training, she decided that if the slightest chance presented itself she would make a dash for liberty. All such hopes were, however, soon dispelled by the deliberate actions of her captor. No sooner was she in the saddle than he proceeded to fasten her feet to the saddle girth with one end of the lariat. He then put a centre hitch on it and tied it around the horse's neck, and, passing the loose end of it through the bit rings, he fastened it to the horn of his own saddle. He then mounted his own horse and followed in the rear of the band, leading her horse beside his own.

Silently the band emerged from their hiding place, and struck over the hills in the direction of the plains to the south. Not a sound broke the stillness of the night, other than the muffled tramp of the horses on the prairie turf, as they gathered speed.

LINIMENT

WESTERN PIONEER TELLS INTERESTING EXPERIENCE

Frank Rikert, Who Left Illinois For California In Covered Wagon In 1864, Wouldn't Take \$100 For Bottle Of Tanlac.

Frank Rikert, well-known resident of North Sacramento, Cal., who came to the state from Illinois in a covered wagon in 1864, along with other hardy pioneers, recently exhibited a bottle of Tanlac, which he had just purchased, to a friend at his home and remarked: "If I thought this was the last bottle of Tanlac I would ever be able to buy, I wouldn't take one hundred dollars for it," thus proving the high valuation he places on the famous treatment.

"I believe Tanlac really saved my life when I took it after the flu about a year ago," continued Mr. Rikert, "for the attack left me 20 pounds off in weight, and unable to turn over in my bed without assistance. I tell you, I thought my time had surely come."

"But, thanks to my wife's insistence, I kept on taking Tanlac till I was able to do all my work again, had back all my lost weight, and I've been feeling years younger ever since. I'm always telling my friends about Tanlac, and can't say too much for it."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Take Tanlac Vegetable Pills.

and settled down to the characteristic hope of the western broncho. They had not proceeded far, however, when she heard another sound that thrilled her with new hope. Some distance in the rear the stillness of the night was broken by the voice of her father calling her name. No sooner had the echoing voice of her father died in the distance than she was cheered by an answering hail. But, before she had time to collect herself, her escort was close beside her. Seizing her around the waist with his right arm, he clapped his left hand over her mouth, and, in a hoarse voice, warned her that if she made an outcry he would shoot to kill. Then, releasing his hold, he pulled his revolver and held it pressed against her side, while

they covered the distance to the face hills.

(To be continued)

Once the pride of the Australian navy, the battleship Australia will be sunk on Anzac Day, in April, with befitting ceremonial. She is to be scrapped in accordance with the terms of the Washington treaty.

Many of the great tributaries of the Amazon River have never been explored, while there are huge tracts of primeval forests on its banks into which no white man has ever penetrated.

Prairie Orchard Owner Honored

Work of Late A. P. Stevenson of Morden Recognized by Canadian Horticultural Council

The achievement of the late A. P. Stevenson, of Morden, Man., in establishing the first productive apple orchard of any magnitude in the prairie provinces, has been recognized by the Canadian Horticultural Council, which has awarded the Carter Medal to the Stevenson family as a recognition of his work to horticulture.

This medal is awarded each year to the person whose work has brought about the greatest advance in horticulture during the year. This is the second, the first going to W. T. Macdonald, Dominion horticulturist.

Not only apples, cooking and dessert, but plums, currants, gooseberries, raspberries and strawberries became an annual crop on Mr. Stevenson's farm.

Schooner Taken North On Sleigh

Five-Ton Vessel Arrives at Reindeer Lake in Saskatchewan

After an overland haul on sleighs of over 580 miles, the H.B.C. schooner, Lac du Brochet, arrived safely at the southern end of Reindeer Lake in Northern Saskatchewan. This vessel was built here by the Alberta Motor Boat Company and was shipped from Edmonton on December 1st to Prince Albert. Here the boat—which weighs five tons—was loaded on a sleigh and with eight teams of horses attached started on her long journey north over the rough trails to the big lake, where she arrived without a scratch.—Edmonton Bulletin.

TEETHING TROUBLES

Baby's teething time is a time of worry and anxiety to most mothers. The little ones become cross; peevish; their little stomach becomes deranged and constipation and colic set in. To make the teething period easy on baby the stomach and bowels must be kept sweet and regular. This can be done by the use of Baby's Own Tablets—the ideal laxative for little ones. The Tablets are a sure relief for all the minor ailments of childhood such as constipation, colic, indigestion, colds and simple fevers. They always do good—never harm. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Duke of York, though left-handed, is considered the best billiard player in the Royal family.

Rub it in for Lame Back.—A brisk rubbing with Dr. Thomas' Electric Oil will relieve lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in, the pain comes out and there are ample grounds for saying that it is an excellent article.

Narrowly Escaped Death

When the closed automobile in which they were riding was struck by a train at Walkerville recently, J. Burke escaped through a hole torn in the roof of the car, while the automobile was being dragged 75 feet, and Frank O'Brien jumped to safety through the door of the car, which was thrown open by the crash.

It will Prevent Ulcerated Throat.—At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

Hungarians For Alberta

It is understood that four thousand Hungarians and two thousand Czechoslovians will in the near future come to Calgary, from where they will be distributed throughout the west.

Minard's Liniment Relieves Colds

Constipated . Dyspeptic, Bilious

Strong purgatives have killed many a good man. Costiveness is bad—violent cathartics are worse. If bothered with stomach trouble or biliousness, use Dr. Hamilton's Pills. They are so mild you can scarcely feel their action, yet so effective that the entire system is cleansed of wastes.

Dr. Hamilton's Pills

Dr. Hamilton's Pills move the bowels gently, they tone the kidneys, assist digestion, clear the skin. For those subject to colds, biliousness, languor, there is no better medicine. Dr. Hamilton's Pills, 25c per box, 5 for \$1.00, all dealers, or The Catarrh Co., Montreal.

Discovered By Doctor

Was Pioneer in Introducing Tobacco in Europe

Every man who smokes owes a debt of gratitude to Francisco Fernandes. The commencement of the use of tobacco by civilized people has been traced back to its introduction in Europe by that celebrated physician. Fernandes was sent by King Philip Second of Spain to investigate the products of Mexico. As a result of his explorations Francisco Fernandes took the tobacco plant to Europe in 1558, for the first time on record. The use of tobacco in England dates from 1556 and the name of Sir Walter Raleigh is associated with its introduction there.

At first the plant was supposed to possess almost miraculous healing powers, and the poet Spencer called it "divine tobacco." Millions of people since those days have realized that tobacco is "a sweetener" of their lot in life and a great equalizer of the temper.

A Divorce Granted

After many years of patient suffering, you can be divorced from corns, you can get rid of them completely by applying Putnam's Corn Extractor. This wonderful old remedy acts in 24 hours and never fails. Refuse a substitute and remember "Putnam's" is the only Painless remedy. 25c everywhere.

Mutton and Macaroni

Preparing An Appetizing Dish From Cold Mutton Scraps

When the cold mutton has lasted so long that the housewife dreads putting it again before her family, let her try it under this guise. Cut the cold meat into cubes. To two cups of meat have one cup of cooked macaroni, two cups of tomato sauce, one cup of cracker crumbs, two table-spoonsful of butter, salt and pepper. In a well buttered enameled ware dish put a layer of macaroni, bread crumbs and tomato sauce, then a layer of mutton with bits of butter, pepper and salt. Alternate until the pan is filled. Sprinkle bread crumbs on top with enough extra butter to brown them. Serve in the dish in which it is cooked. This is one of the many advantages of enameled ware bake dishes—they are always presentable at table as well as useful in the kitchen.

Approximately 1,300,000 persons die each year in the United States, government statisticians figure.

FACE A SIGHT WITH PIMPLES

Large and Red. Itched and Burned. Cuticura Heals.

"My face was itchy and broke out with large, red pimples. They were scattered all over my face and itched and burned so that I scratched which caused them to grow larger. I could hardly sleep at night. They were a real torture and my face was a sight."

"The trouble lasted about three months. I began using Cuticura Soap and Ointment and the first treatment stopped the itching and after using two cakes of Cuticura Soap and one box of Cuticura Ointment I was healed." (Signed) Miss Ora Goulette, R. F. D. 4, Box 86, Barre, Vt., March 24, 1922.

Use Cuticura Soap, Ointment and Talcum exclusively for every-day toilet purposes.

Sample Book Free by Mail. Address: "Ezra's, Ltd., 145 St. Paul St., W. Montreal." Sold every-where. Soap 5c. Ointment 25c and 50c. Talcum 10c. Cuticura Soap shaves without mug.

Ireland As It Is

Improvement in General Tone of the People Is Noted

No picture of Irish life at the present time would be true were the improvement in the general tone of the people not noted. There is a cheerfulness which did not exist three months ago. People have begun to talk again about the ordinary affairs of life. The gloom has largely gone. Laughter is more frequent. You can see the change in the street, in the theatre, in the home.

Another great improvement is that even the staunchest patriot is now not perfectly certain that the Irish are the greatest race in the world. There are doubts even in the densest minds as to whether liberty is all that it was supposed to be. We even stop sometimes to wonder what is liberty. In other words, our political education has begun.—From the Round Table.

NOSE COLDS QUICKLY STOPPED

A neglected cold is the open gateway to Consumption.

To quickly stop a cold, the best way is to clear the air passages of the nose and throat; free them of germs, and let the healing vapor of CATARRHOZONE do the rest.

One breath of CATARRHOZONE brings instant relief. Your suffering stops. Hoarseness is relieved, throat and nose are cleared, inflamed bronchial tubes are healed, all danger of Catarrh is prevented.

Carry CATARRHOZONE Inhaler in your purse, in your vest pocket, and use it when the first shiver or sneeze comes. Complete outfit, One Dollar, small size 50c. At all druggists. Refuse a substitute. By mail from The Catarrh Co., Montreal.

Peat Bogs in Canada

The peat bogs of Canada, as mapped by the mines department, have a total area of 22,000 acres, seven bogs within shipping distance of Toronto being estimated to contain 26,500,000 tons of peat. The number of bogs included in the map is 46 in Ontario, 27 in Quebec, 7 in Manitoba, and 27 in the Maritime Provinces.

She Found Them A Marvellous Remedy

What Mrs. Morneau Says of Dodd's Kidney Pills

Quebec woman suffered from a complication of kidney troubles and found relief in Dodd's Kidney Pills. Ste. Perpetue, P.Q.—(Special).—The value of Dodd's Kidney Pills as a household remedy is shown by the following statement of Mrs. E. Morneau, a well-known resident here.

"I have suffered for several months from rheumatism, backache, pains in the head and cramps." Mrs. Morneau says. "I took eight boxes of Dodd's Kidney Pills and they have greatly benefited me. I recommend them to all those who suffer from kidney complaints, for I have found them marvellous. You can tell others who suffer from bad kidneys that they are very good."

Dodd's Kidney Pills have become a family remedy all over the world, because people have tried them and found them good. They are purely and simply a kidney remedy. They help backache, rheumatism, lumbago, diabetes, heart disease and urinary troubles.

Altaswede Clover

It is expected that about 3,000 lbs. of Altaswede clover will be produced in Alberta this season. This valuable clover was introduced into the province a few years ago by the University of Alberta. Only a very small quantity of seed was at first available.

To Make Delicious Sandwiches

A supply of Clark's Potted Meats gives you delicious sandwiches at a moment's notice. Suitable for luncheons, teas, late suppers, picnics. Give them to the kiddies between meals.

"Let the Clark Kitchens help you."

C.P.R. Demonstration Train

In conjunction with the extension service of the provincial department of agriculture, the Canadian Pacific Railway will operate special cars over its Manitoba lines to demonstrate field and fodder crops. A carload of all varieties of seed will be carried for distribution at the points visited. Forty districts will be visited.

Minard's Liniment for Sprains

Eclipse of the Sun

About One Total Eclipse Occurs In Every Two Years

About one total eclipse of the sun occurs in every two years, but the phase of totality is so short—usually two or three minutes and never as much as eight minutes—that the aggregate time it can be visible over the small sections of the earth shadowed is only eight days in a century. The beautiful and significant phenomena presented are studied at a greater cost in effort and money than anything else so fleeting. Prof. S. A. Mitchell mentions that he has travelled more than 40,000 miles to witness four of these eclipses, and the total time for scientific observations was less than eleven minutes.

Robbed Of Sunshine

AROUND THE TOWN

Miss Edna Ruby spent the week
end at her home here.

Mr. Frank Mertens was a visitor
in Calgary last Friday.

Miss Saunders spent the week end
at her home in Lacombe.

Mr. Ward Keith of Calgary was
a visitor in town last Friday.

Miss Ada Neilson spent the week
end in Calgary.

Miss Katherine Rood of Calgary
and Miss Maud Rood of Carstairs
spent Easter here with their mother.

Mrs. W. G. Liesemer and daughter
Evelyn were visitors in Calgary on
Monday.

Mr. M. Weber left on Wednesday
for Regina and will be gone till the
end of the week.

Mrs. Frank Mertens returned home
this week after spending some days
with her parents in Strathmore.

Master Billy McIntyre of Calgary
is visiting here with his sister
Mrs. Mary McIntyre.

Miss Farrell of Edmonton is vis-
iting here with her sister, Mrs. Dr.
Clarke.

Miss Irene Rodaway was a visitor
in Calgary on Wednesday where she
attended the wedding of her friend
Mrs. Ethel Smith of that city.

The Misses Bertha and Winnie
Arlendson were visiting with their
mother over the Easter holidays and
then proceeded to Calgary for the
Teachers Convention.

Mrs. Finlay of Buena Mission, Ed-
monton, will speak at the Evangel-
ical church on Sunday morning and
evening. Rev. Lee will conduct the
services.

The two High School teachers, Mr.
Goldie Liesemer, Prin., and Miss
Rorcoe, are attending the Teachers
Convention in Calgary. The Public
School teachers decided to hold
school as they had missed two weeks
as a result of the two weeks quaran-
tine on the Public School.

The Women's Institute plays put
on in the Opera House on Easter
Monday was a decided success. There
was a fair attendance and those
present were well pleased with the
performance. This will be a great
encouragement for the ladies to car-
ry on and maybe put on further pro-
grams at a later date.

A TESTIMONIAL

Gleichen, Alta., April 14, 1924.
Roschud Milling Co.,
Edsburry Alta.

Dear Sirs,—Enclosed find one dollar
for which please send me a sack of
Wheatlets (your own grinding). A
sample of them was so much better
than the commercial brands we've
been getting. Take the postage or
express out of the dollar please.

Respectfully,
B. B. Jones,
Gleichen, Alta.
